BEAUTIFUL SOUL

Based Theydon Bois, UK, produced in London

Beautiful Soul's designs combine indulgent vintage fabrics, in particular vintage kimonos, with sustainable materials to create versatile, timeless and elegant structural pieces.

AW10 Beautiful Soul's 'No.3' collection - connects the detailed beauty of the Orient with the warmth and luxury of newly introduced British wool from a rare breed of Shetland sheep sourced from Izzy Lane. The elegant monochrome reds and blues and dramatic structures find their roots in both Japanese haute couture and European drama.

Stockists include: Ascension, London; Junky Styling, London; V& A London
